Jim,

Just want to check and see if you have any objections to me contacting Garry Griffith about an update on our Removal Action.

Let me know.

Thanks

Craig

Craig, Am forwarding Gary's contact information. He had asked Jim Saric for an update on the project a month ago but not response. I dont know if jim contacted Paul or Andy. Anyways he asked me to pass on his request to you yesterday during our inspection.

Ramon

The only change I suggest is to meet upstream at the Plainwell No. 2 Dam site on the 12th. We can launch the boats at the second year staging area located off 10th Street. We can discuss on the

11th.

This is to confirm plans for next week:
Meet at the WWTP launch in Plainwell at 9 am EST.

Plainwell #1 site review: DNR has a 17' boat available on the 11th, we should be able to take 5 passengers: Mark, Sharon, Judie, Julie and Lisa. We'll catch up with Polly after the site review on the 12th.
GP has their boat and will take their crew. DEQ also has a boat and will ferry EPA.

Plainwell #2 dam site review: meet same time and location on the 12th; DNR boat will include Gregg instead of Olen – and same passengers if they want to attend. Meeting afterwards in the Plainwell district office.

Gregg, can you confirm we can use the basement conf room that day for the afternoon?
Polly we will call or please join us, we should be ready to convene by 1:30 -2 pm.

Any complications/questions?

GP and EPA are still on for next week. Tuesday June 11 at former Plainwell Dam TCRA final inspection, and Wed. June 12 at Plainwell Dam No. 2 TCRA annual (3rd) site inspection. I propose we meet inside the Plainwell Wastewater Treatment Plant boat launch site at 9 AM. I have a poster board of the removal areas and bank repairs that have been during the monitoring period that we can review, along with the float plan and safety considerations.

GP has a boat with 3 on board, which is capacity, particularly with current water levels. I noted the DNR boat scheduling issue. I am trying to locate a second boat and will advise if one is available.

I am assuming we are still on for a final tour of the Plainwell #1 dam site next Tuesday, June 11th with a second day if needed on the 12th. There is some interest by the NRD Trustees to attend if they can be accommodated, so I would appreciate having an idea of logistics. Do DNR, GP and DEQ each have a boat, and what is your capacity if any to add participants beyond your own planned passengers?

Also, do we need to meet first, or want a chance to talk after the tour? If so, does the DNR Plainwell office have a room open? Thanks much.
